Description [\(revised\)](#)

You are bidding on a working Authentic Apple Color Classic, only a few of these were produced, I know of only 2 like mine. Some were all clear , and some were all green.. The transparent case was manufactured for Apple engineers to see how things fit inside the case..... For more photos of this computer go to <http://pg.photos.yahoo.com/ph/tj4chips/album?.dir=/8580> PayPal only please, buyer to pay all shipping and ins. charges.....

On May-02-05 at 08:12:30 PDT, seller added the following information:

And yes, there is sticker on the tube that does read "engineering Sample"..... The last person at Apple that I was able to talk to me about this, said that I was very lucky to have this and that "it should have never left the control of Apple or the employee who it was entrusted to."..... The story goes like this... Apple made about 20 all clear Classic's for store displays, and then experimented with making a few green ones. You can see an example of an all green one at <http://homepage.mac.com/newoptions/PhotoAlbum22.html> It's my understanding that there were only 2 made like mine.....
